

## Research Consortium Research Visitation

Princeton participates in a number of multi-institutional collaborative research efforts at the graduate level. The free exchange of graduate students is often a feature of such arrangements. In order to document students' research visits through these exchanges, we ask the program provide information below and certify, by the signature of the Princeton host coordinator, the student's period of stay and research affiliation.

When completed, this form should be sent to the academic affairs office, 111 Clio Hall, attn. Elaine Willey, assistant dean for academic support programs ([ewilley@princeton.edu](mailto:ewilley@princeton.edu); x8-3033).

Support for the visiting student will be the responsibility of the student's home institution or of the consortial grant, if funding was approved in the grant. Questions or concerns should be addressed first to the Princeton coordinator or liaison for the grant, then to the office of academic affairs in the Graduate School.
