Summer Workshops | Rutgers University iJOBS

The Rutgers University iJOBS Program, funded by the National Institutes of Health, exposes life science PhD students and postdocs to a range of non-academic career options and empowers them to pursue their career goals. In 2014 Rutgers became 1 of only 17 schools in the country to be awarded an NIH BEST grant and iJOBS programming has now expanded to all campuses of Rutgers as well as Princeton, Rowan, NJ Institute of Technology and Stevens Institute of Technology. iJOBS maintains research as the primary graduate student focus, while offering programming to broaden students' perspectives, experiences and knowledge to facilitate pursuit of the diverse range careers.

**iJOBS Career Panel: Non-research Careers with a PhD**

June 27 from 10-11:30am

Your PhD can take you in many different directions, some of which you may have not even considered! Come hear from a panel of speakers including, among others, someone in business development, a postdoc in industry, a clinical researcher, editor of a journal, and someone who works for a non-profit to learn how they each took skills obtained in graduate school and apply them in science-related careers. To register, click here.
Intellectual Property | What It Is and Why It’s Important
Monday, June 18 from 5-7:45 pm
Princeton Innovation Center BioLabs
303A College Road East

Muriel Liberto and Sean Grygiel from Mintz Levin will discuss all aspects of intellectual property including trademark, copyright, patents, and trade secrets and how IP can be a valuable business asset when developed early with a business focused strategy.
