InterSECT Job Simulations

InterSECT is an online platform that allows PhD-level scientists and humanists, regardless of professional stage, to explore future career options. Our goal is to provide true-to-life job simulation exercises that help individuals consider the following questions:

- What are my professional interests and skills?
- How do my interests and skills translate to potential careers?
- What are my career options?
- Which careers haven’t I considered?

University Administrative Fellows | Rolling Deadline

The UAF Program allows enrolled Ph.D. students (including DCE students) an opportunity to be mentored by a Princeton administrator and work on a project in their area for up to six hours per week over the course of the fall semester for a stipend of $1,000. A few opportunities remain:

- Office of Engineering Communications
NIH Small Business Innovation Research (SBIR) Seminar

September 21, 9:30 am – 1:00 pm
675 US Highway One, North Brunswick

Technology Commercialization Seminar: Learn more about NIH Small Business Innovation Research (SBIR) and Small Business Technology Transfer (STTR). This seminar is intended to provide participants with an overview of the SBIR and STTR programs with a focus on the National Institutes of Health (NIH) and its 2 largest Institutes, the National Cancer Institute (NCI) and the National Institute of Allergy and Infectious Diseases (NIAID). Following the morning seminar and a networking lunch, the speakers will be available for 1-to-1 appointments with attendees in the afternoon. Princeton graduate students are welcome to register for this event hosted by the NJEDA Commercialization Center, and is sponsored by The New Jersey Small Business Development Center, BioNJ, NJ Technology Council, Princeton Entrepreneurship Council, and Rutgers New Ventures and Commercialization Funding Group.

Students: $15 in advance/$30 after September 20th at 12pm. E-mail shopkins@njsbdc.com for more information, or visit https://njsbdc.com/sbir/.

Academic Job Search Workshops | Deadline to register is Aug. 20th

Are you going on the academic job market this fall? Join us for a day long workshop on the essentials: CVs, cover letters, teaching philosophy statements, diversity statement, interviewing strategies and hear from a panel of faculty about navigating the academic job market. Space is limited. Sponsored by the Graduate School, the McGraw Center, the Office of Career Services and the Postdoc Council.

Humanities and Social Sciences
August 27th, 9am - 4pm
Julis Romo Rabinowitz 399

Natural Sciences and Engineering
August 28th, 9am - 4 pm
Friend Center Convocation Room
RSVP Link: https://gsapps.princeton.edu/events/rsvp/code/pc61xy

Call for proposals: Being Human Festival, November- December 2018

The Humanities Council is offering grants of $250 to $2500 for Princeton undergrads, graduate students, faculty and staff for events designed to bring the university into the community for activities, shared experiences, conversations, and performances. This year's festival will be on the theme of "Origins and Endings."
Proposals of 1-2 pages are due by Friday September 28th.

Co-sponsored by the Program for Community-Engaged Scholarship (formerly CBLJ), the Pace Center for Civic Engagement, and the McGraw Center for Teaching and Learning

Upcoming McGraw Center Programs

McGraw Center Teaching Seminar: CTL 501: Scholarly Approaches to Teaching and Learning

McGraw’s popular teaching seminar, formerly known as the Teagle Seminar, has now become an official part of the curriculum, and interested graduate students can register for the course as CTL 501. This 12-week course is open to graduate students from all disciplines who have taught (or will teach during the seminar semester) at Princeton. The course engages participants in critical discussions of current scholarship in the fields of learning and pedagogy, with opportunities to apply new pedagogical approaches in their own teaching practice. Participants will refine their understanding of teaching as they reflect meaningfully on the approaches and critical skills gained in their own disciplines as part of a liberal arts education.

In Fall 2018, seminar meetings are scheduled for Friday mornings, 10:00 a.m. - 12:30 p.m. Please visit the McGraw Center’s website for a complete course description and for registration information.

McGraw Center Job Opportunity: Graduate Student Fellow for STEM Undergraduate Learning Support

Do you want to share with Princeton STEM undergraduates the expertise you’ve developed around effective and efficient learning, problem-solving, and research? The McGraw Center’s Undergraduate Learning Program is seeking to fill a Graduate Student Fellow position to support undergraduate STEM students (with a particular emphasis on engineering students) in their coursework and independent research. The Fellow will develop content and deliver programming that enhances students’ learning and problem solving skills and strategies in STEM disciplines.

The STEM Fellow position is funded as an AI3 (equivalent to a course preceptor). Work hours are extremely flexible. To learn more, please contact Nic Voge at nvoge@princeton.edu.

Carpe Careers | How the Science of Well-Being Can Enhance Your Career

You can’t figure out which jobs have the possibility to become your vocation, writes Melissa Dalgleish, until you first figure out yourself and your signature strengths. Read more...
Part of The Graduate School's mission is to ensure that our graduate students have the skills they need to succeed professionally as well as academically. Our office and campus partners provide a full range of professional development opportunities and resources for graduate students. We hope you will take advantage of all the Princeton graduate education has to offer.
